REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Kingston:

I am privileged to submit this annual report, the ninth in the series.

THE SCHOOL AND DEMOCRACY

"The free common school is America's greatest gift to humanity. It belongs to the heritage of intelligent and responsible citizenship, established by our pioneering forefathers. It is necessary to the success of our Republic. The school is the surest guarantee of our personal rights. It is the safeguard of our political liberties. It is the bulwark of our representative institutions. The school seeks to enrich and ennoble home life. It develops the skills needed in agriculture and industry. It helps to awaken ambition and to establish character. It emphasizes responsibility to the common good and the general welfare. Because we believe in ourselves, in democracy, and in the future, we seek through the schools to improve the quality of our lives."

TEACHERS

I am ever mindful of the excellent work which a faithful, trained group of teachers is able to accomplish. They have shown evidence of energy and efficiency in school procedures, which is of great importance to the affairs of this world, namely, in the education of the great masses. We understand the great trials and tribulations with which they are confronted. No one appreciates more than I the service they are able to render in the solution of the problems so many differing personalities offer to them.

You will note that the same efficient staff of teachers remains in your schools, with one exception. Miss Edna Thereau retired from service, with Miss Edna Grierson taking her place. Retention of teachers speaks volumes in appreciation.

EDUCATIONAL PROGRESS

The progress of your children may be illustrated by these results taken from the May, 1935 tests.

	<i>Reached or bettered the grade</i>	<i>Below grade</i>
Grade I	18	0
Grade II	18	1
Grade III	13	0
Grade IV	17	3
Grade V	17	4
Grade VI	8	3
Grade VII	13	3
Grade VIII	16	1

This table illustrates a most satisfactory condition, namely, the small percentage of pupils below grade. It is a happy factor and one, I assure you, which I wish prevailed in all the other towns of this Union. But, alas, that is not to be. However, this does not detract one iota from the satisfaction you must feel that your pupils succeed so well under such able instruction.

The above shows clearly just how valuable to you is the State Aid. If you were called upon to shoulder the whole burden of the cost, reference to the second column gives you the

total, while the third column shows the State Aid, and the fourth the net to you. The fifth and sixth columns are included only for comparative purposes.

DISTRIBUTION OF THE 1934-35 SCHOOL DOLLAR

The following table shows just what proportion of each dollar available for school purposes was used for the separate items:

Administration

Include superintendent's excess salary, officers' salaries and expenses..... .035

Instruction

Include teachers' salaries, textbooks and supplies... .435

Operation and Maintenance

Include fuel, janitors, lights, repairs..... .065

Auxiliary Agencies

Include nurse, transportation, tuitions..... .379

Fixed Charges

Include per capita tax, insurance..... .043

Outlay for Plant or Equipment

Include major repairs, new equipment.042

As the major share of the amount listed opposite Auxiliary Agencies is for the payment of high school tuition, based upon the instructional expense of the high school, it is readily seen that instruction takes up nearly 70% of the total expenditures.

THE SCHOOL PLANT

The major improvements made during the past summer have been the installation of adequate heating and ventilating equipment at the Plains and Patten Schools. The plan is to complete the heating arrangements at West Kingston next summer, thus the task set up three years ago will be finished.

Some plans for painting and floors have been held up pending W.P.A. approval. No action or report on this work can be made at this time. Some of this work may be done during warmer weather but definite assurance of completion is lacking. If these repairs are not to be done through the W.P.A., you should do some of them alone. The buildings need painting, and it is generally agreed among authorities that outside painting of two coats should be done every four years. I believe all but one building come within this classification. Well painted buildings are an asset to any town and are found to be more economical in upkeep if regularly done.

SCHOOLS OF TODAY

Whatever may be wrong with this country the public schools cannot be charged with the whole responsibility for it. Yet we are well aware of the many criticisms that are directed at them. We are quite sure that errors are evident, yet we strive to reduce these to the lowest minimum. We believe that education of today is a sane procedure to help the individual realize on his possibilities. We aim to develop character, to impress neighborliness and duty, to improve social responsibility, and to prepare youth for the life they must live, whether they desire to or not. We must be progressive to meet the changing

conditions, the same as industry has to or is forced to by circumstances beyond its control. We must not allow our schools to become outmoded. The schools must go on.

I would not be unmindful of the generous support given me by the corps of teachers, the helpful advice of a faithful Board, and the loyalty of an active citizenry. To all I express my gratitude.

Very respectfully,

HAROLD C. BOWLEY,
Superintendent of Schools
